

Community High School District 94
COMMUNITY FORUM – 4/27/2011

On Wednesday, April 27, the district hosted the second Community Forum of this school year. Board President, Kathe Doremus, reviewed the recently developed Strategic Plan. The Strategic Plan responds to the Strategic Charge developed by the School Board. The Strategic Charge includes:

Enhance every student's academic performance and athletics/activities participation.
Provide appropriate facilities to support the needs of student achievement while maintaining fiscal responsibility.
Maximize staff performance and professional growth to optimize student performance.
Engage and take ownership of individual student and school successes.

Dr. Moses Cheng, Principal of Community High School, presented the school's Instructional Renewal Plan. The Plan focuses on professional development and best instructional practice.

Mr. Gordon Cole, the district's Business Manager, delivered a presentation which explained the district's financial position.

Attendees raised questions regarding employee benefits, consolidation of several districts into one, and trends in finance.

We are happy to share the PowerPoint presentations used that evening. I would be happy to respond to questions or comments.
