## **1500 POLICIES OF THE BOARD**

### **1501 Policy Development**

The regular and systematic formulation and adoption of written policies is the basic method by which the Board exercises its leadership. A “policy” is a statement adopted by the Board providing general guidance on a specific topic which can be implemented by administrative action or procedures.

Any Board member, the Superintendent, or any District citizen may propose new policies or changes to existing policies. Suggestions from staff members or organizations are processed through regular administrative channels and Board reviews, as defined in policy.

The Superintendent, or a designee, is responsible for: (1) notifying those who will be impacted by a proposed policy and obtaining their advice and suggestions to be considered in formulating of the policy; and (2) drafting policy recommendations into acceptable written form for further deliberation and/or action by the Board. - E. Although individual Board members possess the privilege to listen to complaints, the Board prefers that communications or complaints from administrators, teachers, parents, or patrons shall first be referred to the chain of command (located in the student handbook) for possible solution with staff. If satisfactory adjustments cannot be made by the Superintendent and his/her staff, such communications and complaints may be referred to the Board.

Specific complaints concerning instructional practices, student disciplinary action, or District employees are to be directed to the appropriate level for response according to the following sequence:

The Board of Education will address complaints only after they have been explored by the appropriate staff level as identified in the above sequence. Responses at every level shall be rendered in a timely manner – generally less than thirty (30) days. When that is not possible, an explanation as to why should be sent.

Anonymous complaints and complaints concerning individual District employees, volunteers or students, will not be accepted by the Board without specific documentation. Any such complaint will be investigated by the administration before

consideration by the Board. When the Board considers personnel complaints, it will be done in executive session as recommended by the Superintendent and permitted by applicable State statutes.

Informal (verbal) complaints are encouraged initially. When an informal complaint cannot be resolved at the level of origination or the next higher level, the complainant should be asked to complete a formal Public Complaint Form, available from the office of the Superintendent or Principal.

B. distribution, consumption, use, possession, or being under the influence of alcohol and/or medical cannabis while on District premises, at work, at a school event, or school-sponsored event. A school-sponsored event is one conducted with the authorization of, and under the auspices of, the District in conformance with all of its rules and for which District staff, whether paid or unpaid for the event, exercise supervisory responsibility on behalf of the District.

For purposes of this policy, a controlled substance is one which is:

1. not legally obtainable;

4. referenced in Federal or State controlled substance acts.

As a condition of employment, each employee shall:

### **1802 Student Search and Seizure**

#### Search and Seizure:

For the safety and supervision of students in the absence of parent(s)/ guardian(s), to maintain discipline and order in schools, and to provide for the health, safety and welfare of students and staff, school authorities are authorized to inspect and conduct searches of students and their personal effects, as well as District property. Such authority to conduct searches shall extend to all certificated personnel, school administrators, and school liaison police officers ("school authorities"). Such searches may take place at school, on school premises, at any school-sponsored activity or event,

or at any activity or event which bears a reasonable relationship to school, whether on or off District 94 premises. Searches may be conducted with regard to all items listed here; in District Policy ¶7308 on Internet Guidelines, Terms and Conditions; in District Policy ¶7309 on Internet Use Agreement; and in the Student Discipline Policy as provided to students.

#### Students and Their Personal Effects

School authorities may search a student and/or the student's personal effects in his/her possession, including, but not limited to, purses, wallets, backpacks, knapsacks, lunch bags, lunch boxes, containers of any kind, books, notebooks, and outer clothing and hat, when there are reasonable grounds for suspecting the search will turn up evidence that a student has violated or is violating a state law or school rule, is reasonably related to the objectives of the search and is not excessively intrusive considering the age and sex of the student and the nature of the infraction.

When feasible, the search should be conducted as follows:

- Outside the view of others, including students;
- In the presence of a school administrator or adult witness;
- When the search is of a person, it will be conducted by a school authority of the same sex.

Immediately following the search of a student, a written report shall be made by the school authority who conducted the search. The written report shall be submitted to the Building Principal, where appropriate, and forwarded to the Superintendent. The parents/guardians of a student searched in accordance with this policy shall be notified of the search as soon as possible.

#### School Property

School property, including, but not limited to, lockers, desks, parking lots and other school property and equipment owned or controlled by the District, as well as personal effects (as described in this Policy) left by students or others in those places and areas may be searched by school authorities at any time without notice to or consent of the student, and without a search warrant. Students and others have no reasonable expectation of privacy in these places and areas or in their personal effects left in these places and areas. School authorities are authorized to conduct area-wide, general administrative inspections of school property (e.g., searches of all student lockers) without notice to or consent of the student, and without a search warrant.

#### Parking Lots and Grounds

The foregoing authority to inspect and search without notice to or consent of the student, and without a search warrant, extends to vehicles on school property and personal effects left in those vehicles regardless of who owns them/it. A student has no reasonable expectation of privacy in a vehicle owned or driven by the student onto school property. As a condition of being allowed to park on school property, high school

students shall consent in writing to school searches of their vehicles, and personal effects contained in their vehicles, without notice or consent and without a search warrant. Students wishing to utilize District -owned parking areas must register their vehicle(s) in the high school office prior to or on the date of first use.

A vehicle parking on school property will not be allowed to leave the school premises when school authorities have reason to believe that illegal drugs, weapons, or other illegal, dangerous, or prohibited substances or materials are within the vehicle.

#### Assistance from Outside Authorities

School authorities may request the assistance of law enforcement officials for the purpose of conducting inspections and searches of lockers, desks, parking lots, vehicles parked on school property and other school property and equipment owned or controlled by the District for illegal drugs, weapons, or other illegal, dangerous, or prohibited substances or materials, including searches conducted through the use of specially trained dogs.

#### Seizure of Property/Penalties

If a search conducted pursuant to this policy produces evidence that the student has violated or is violating either the law, local ordinance, or the District's policies or rules, school authorities may seize the evidence and take appropriate disciplinary action, which may include suspension from school and school-related activities for up to ten (10) days, and expulsion from school and school-related activities for up to two (2) calendar years. School authorities may also turn over evidence to local law enforcement authorities.

Any student or others who violates this Policy or refuses to cooperate in the conduct of a search by school authorities will be subject to a possible police referral, loss of parking privileges for up to one (1) year, suspension from school and school-related activities for up to ten (10) days, and expulsion from school and school-related activities for up to two (2) calendar years, whichever is applicable.

### **1803 Smoke and Tobacco Free School**

The following definitions apply to this Policy:

**School Property** – School and District buildings and grounds (regardless of whether they are owned, leased or operated by the district), vehicles used for school purposes, and any

location used for a Board of Education meeting, school athletic event, or other school-sponsored event.

**Visitor** – Any person other than an enrolled student or District employee, Board of Education Member, contractor (e.g. security employee), or assigned volunteer (e.g. volunteer coach).

The use of tobacco products and electronic cigarettes (e-cigarettes) in or on school property is contrary to both the educational goals, interest, image of the District and the maintenance of a healthy and safe school work environment. Substantial medical research has established that the use of tobacco products is a hazard to the health and welfare of the users and, secondarily, to the health and welfare of those exposed to the smoke.

For these reasons, all persons (students, employees, independent contractors, members of the general public, and any other individuals) are prohibited from using, possessing, distributing, purchasing, or selling any tobacco products or e-cigarettes in or on school property.

As used throughout this Policy Manual, “tobacco” or “tobacco products” means any kind or form of tobacco or tobacco product, including, but not limited to cigarettes, cigars, pipes or other smoking products and smokeless tobacco in any form. E-cigarettes are devices designed to produce a mist or vapor for inhaling.

Violators of this policy will be subject to disciplinary proceedings of the District.

To achieve tobacco-free and e-cigarette-free schools, the District will work cooperatively with staff, students, families and community health agencies, and shall include establishing both prevention and intervention programs.

Prevention efforts will focus on the provision of education and guidance where appropriate.

Intervention efforts will include appropriate cessation programs for employees and students and informational materials for employees and students, with reasonable time provided to eliminate smoking habits prior to the first day of school

### Enforcement Procedures

#### A. Employees

1. All employees shall be informed of the District’s policies and where to find them. Cessation assistance shall be made available, if requested. New employees will be so informed at time of hire.

2. A violation of this policy by staff shall be referred to the principal or supervisor who will verbally remind the employee of the policy and prepare a written summary of the violation. The employee will be asked to abide by this policy in the future. A copy of this policy will be provided to the employee. Cessation assistance may be offered to the employee.

3. If a second violation occurs, a written non-compliance report, directing the employee to abide by the policy, will be issued by the principal or supervisor and a copy of this report will be retained in the personnel file. Cessation assistance will be offered.

4. If a third violation occurs, the employee will be referred by the principal or supervisor to the superintendent for disciplinary action, per district policy and procedures concerning disciplinary action involving employees.

#### B. Spectators and Visitors – Public Events

1. Posted notices shall be used to inform spectators and visitors of this policy.

2. Spectators or visitors who use tobacco or e-cigarettes on school property shall be reminded by the principal, supervisor, or his/her designee, of this policy, and immediately requested to cease such tobacco or e-cigarette use.

3. If a spectator or visitor refuses to stop using tobacco or e-cigarettes after being so requested, they will be asked by the principal, supervisor, or his/her designee to leave the school property. Violators may be referred to law enforcement and may be removed from school grounds by proper school authorities.

#### C. Students

Any violation of this policy by students shall be subject to building discipline procedures.

### **1804 Fraternities - Sororities**

The purpose of this policy is to maintain a safe, positive environment for students and staff that is free from prohibited organizations, which are inconsistent with the educational goals of the district and are prohibited at all times. It expands upon the Student Discipline Policy that prohibits any student activities associated with prohibited organizations.

Fraternities, sororities, secret societies or other organizations, composed wholly or in part of Community High School District 94 pupils, which seek to perpetuate themselves by taking in additional members from the pupils enrolled in Community High School District 94 on the basis of the decision of its membership rather than upon the free choice of any pupil in the school who is qualified by the rules of the school to fill the special aims of the organization are prohibited. Any student who abuses the right to membership through "disobedience, disrespect, or misconduct" prohibited by the Student Discipline Policy shall be subject to the disciplinary action stated therein.

The Board does not condone any organization prohibited by this Policy as part of school or any school-sponsored activity. No student, coach, sponsor, volunteer or district employee shall engage in, plan, direct, encourage, solicit, aid or otherwise assist in the formation or continuation of any organization prohibited by this Policy.

The Board directs that no administrator, coach, sponsor, volunteer or district employee permit, condone or tolerate any organization prohibited by this policy.

The Board encourages students who have knowledge of any activity which may violate this policy to promptly report it to the Principal.

The District will investigate all complaints that any of the provisions of this policy have been violated and will administer appropriate discipline to any individual who violates this policy. Students who violate this policy will be subject to one or more of the disciplinary actions set forth in the Student Discipline Policy.

These grounds for disciplinary action apply whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

- A. On, or within sight of, school grounds before, during, or after school hours and any other time when the school is being used by a school group.
- B. Off school grounds at a school activity, function, or event:
- C. Traveling to or from school or a school activity, function or event; or
- D. Anywhere, if the conduct may reasonably be considered to be an interference with school purposes or an education function.

The District shall annually inform students, parents, coaches, sponsors, volunteers and district staff of the terms of this policy by means of:

- Distribution of this Policy to District staff;
- Publication of this Policy, or a summary of this Policy, in parent-student handbooks;

- Presentation of the contents of this Policy at an assembly;
- Presentation of the contents of this Policy by the coach or sponsor of school-approved sports or activities at the start of the season or activity.

### **1805 Hazing**

Soliciting, encouraging, aiding, or engaging in hazing is prohibited.

"Hazing" means any intentional, knowing, or reckless act whether or not committed on school property or at a school-sponsored event (including any conduct on the Internet) directed against a student which subjects that student to verbal or physical harassment, ridicule, or a demeaning activity by an individual or a group of students. This policy is consistent with and builds upon the Student Discipline Policy prohibiting any willful act, which could result in physical, mental, or emotional injury to another person.

Any hazing activity, whether by an individual or a group, shall be considered to be a forced activity, even if a student willingly participates. The consent of the student or students subjected to hazing shall not be a defense to a violation of this policy.

The Board does not condone hazing as part of school or any school-sponsored activity. No student, coach, sponsor, volunteer or district employee shall engage in, plan, direct, encourage, solicit, aid or otherwise assist in any activity prohibited by this policy.

The Board directs that no administrator, coach, sponsor, volunteer or district employee shall permit, condone or tolerate any activity prohibited by this policy.

The District will investigate all complaints (and reserves its right to monitor publicly-available information on the Internet), to determine whether any of the provisions of this policy have been violated and will administer appropriate discipline to any individual who violates this policy. If necessary, the District may initiate an investigation of suspected hazing absent a complaint if, in the District's good-faith belief, such an investigation is warranted to protect the physical, mental or emotional safety of students or staff or to secure the safety and non-disruption of the school environment.

The Board encourages students who have been subjected to hazing or who have knowledge of any activity which may violate this policy to promptly report such incidents to the Principal.

Students engaging in hazing will be subject to one or more of the disciplinary actions set forth in the Student Discipline Policy.

The District shall annually inform students, parents, coaches, sponsors, volunteers and district staff of the terms of this policy by means of:

- Distribution of this Policy to District staff;
- Publication of this Policy, or a summary of this Policy, in parent-student handbooks;
- Presentation of the contents of this Policy at an assembly;
- Presentation of the contents of this Policy by the coach or sponsor of school-approved sports or activities at the start of the season or activity.

### **1806 Prevention of and Response to Bullying, Intimidation, and Harassment**

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic **is prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of

technology or an electronic device that is not owned, leased, or used by the School District or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require staff members to monitor any nonschool-related activity, function, or program.

Definitions from Section 27-23.7 of the School Code (105 ILCS 5/27-23.7) *Bullying* includes *cyber-bullying* and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

*Cyber-bullying* means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. *Cyber-bullying* includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of *bullying*. *Cyber-bullying* also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of *bullying*.

*Restorative measures* means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

*School personnel* means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the requirements listed below; each numbered requirement, 1-12, corresponds with the same number in the list of required policy components in 105 ILCS 5/27-23.7(b) 1-12.

1. The District uses the definition of *bullying* as provided in this policy.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.
3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the District Complaint Manager or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District Complaint Manager or any staff member. Anonymous reports are also accepted.

discuss, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.

5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:

- a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of a bullying incident was received and taking into consideration additional relevant information received during the course of the investigation about the reported bullying incident.
- b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
- c. Notifying the Building Principal or school administrator or designee of the reported incident of bullying as soon as possible after the report is received.

The Superintendent or designee shall investigate whether a reported incident of bullying is within the permissible scope of the District's jurisdiction and shall require that the District provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Superintendent or designee shall use interventions to address bullying, that may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.

7. A reprisal or retaliation against any person who reports an act of bullying **is prohibited**. A student's act of reprisal or retaliation will be treated as *bullying* for purposes of determining any consequences or other appropriate remedial actions.

8. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as *bullying* for purposes of determining any consequences or other appropriate remedial actions.

9. The District's bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.

10. The Superintendent or designee shall post this policy on the District's Internet website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must also be distributed annually to parents/guardians, students, and school personnel, including new employees when hired.

11. The Superintendent or designee shall assist the Board with its evaluation and assessment of this policy's outcomes and effectiveness. This process shall include, without limitation:

- a. The frequency of victimization;
- b. Student, staff, and family observations of safety at a school;
- c. Identification of areas of a school where bullying occurs;
- d. The types of bullying utilized; and
- e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. The Superintendent or designee must post the information developed as a result of the policy evaluation on the District's website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students.

12. The Superintendent or designee shall fully implement the Board policies, including without limitation, the following:

- a. 8003, *Uniform Grievance Procedure*. A student may use this policy to complain about bullying.
- b. 7314, *Social and Emotional Development*. Student social and emotional development is incorporated into the District's educational program as required by State law.
- c. 7308, *Internet Guidelines, Terms, Conditions*. This policy states that the use of the District's electronic networks is limited to: (1) support of education and/or research, or (2) a legitimate business use.

### **1904P Regulations for the Reimbursement of Travel, Meal, and Lodging Expense**

#### 1. General

These regulations allow for the approval of expenses that exceed the maximum allowable travel, meal, or lodging expenses because of emergency or other extraordinary circumstances. Furthermore these regulations apply for all reimbursement for both in-district and out-of-district expenses.

Expenses for travel, meals, and lodging of (1) any officer or employee that exceeds the maximum allowed under these regulations or (2) any member of the Board of Education, may only be approved by roll call vote at an open meeting of the Board.

Employees and Board members are expected to use sound judgment and make prudent decisions with regard to expenditures related to District business. Expenses deemed to be lavish and excessive will not be reimbursed. These regulations are provided to facilitate good stewardship of District resources. It is not possible to address every situation, circumstance, or decision covered by these regulations. The employee should consult with his/her supervisor if one or more of

these regulations cannot be followed. Board members should consult the Superintendent with questions. Supervisors are encouraged to seek the approval of the Superintendent if one or more of these regulations cannot be followed.

2. Purchase Requisitions for Conferences and Professional Development  
All typical requisition and purchase order procedures for attending a conference or requesting permission to attend professional development should be followed. Knowing that conference fees are often discounted when submitting a registration request early, employees and Board members are urged to make plans so that all available discounts can be realized. The Superintendent's Administrative Assistant will assist Board members with this process.

3. Travel and Lodging Approval and Arrangements  
Out of State Travel Requirements

All out of state travel and/or travel that requires a flight or rental car must be approved by the Superintendent or his/her designee using the attached "Travel Request Form." While some circumstances may require last minute travel arrangements, it should be the norm for all out of state travel and/or travel that requires a flight or rental car to be arranged at least 45 days in advance of the travel date to ensure that the most economical rates can be secured. Out of state travel and/or travel requiring a flight or rental car that cannot be arranged 45 days prior to the travel date must be approved by the Superintendent or his/her designee.

#### Travel Requiring a Flight and/or Rental Car

When travel requires a flight or rental car, a district employee must conduct research to secure the most economical travel method and attach information to the Community High School District 94 Travel Request Form which demonstrates that competitive travel sources have been considered. The Superintendent's Administrative Assistant will assist Board members with conducting this research. The research can be done with the assistance of a local travel agent, online travel arrangement sources (e.g., kayak.com, orbitz.com, hotwire.com, expedia.com, etc.), and/or directly through airlines and/or car rental sites (e.g., United, American Airlines, Southwest, Delta, Enterprise, Budget Car Rental, National, etc.). All travel should be selected based on the lowest fare available. Sedan car service / limousine service is not allowed unless it is documented as a less expensive option. Rental car insurance should not be selected as the District's insurance policy covers the employee, Board members, and damage expenses. The cost of a taxi/shuttle service from an airport to a hotel will be reimbursed,

but employees and Board members should select the least expensive mode of travel.

#### Travel Levels – Flights and/or Rental Cars

Flights are reimbursed at actual cost, not to exceed the cost of coach airfare. First class and business class travel is prohibited unless an upgrade is made using frequent flyer miles, is free or is less expensive than other travel options, or if warranted by emergency circumstances. When needed for travel, the least expensive rental car should be selected. The rental car size will be determined by the number of travelers. Thus, a mid-size vehicle and/or van may be the most economical option based on the number of employees and/or Board members traveling. The District will reimburse the employee and Board member for baggage fees for two pieces of luggage for travel less than five days and three pieces of luggage for travel that lasts five or more days.

#### Rail or Bus Travel

Rail or bus travel shall be reimbursed at actual cost, not to exceed the cost of coach airfare. Copies of tickets will be attached to the request for reimbursement to substantiate amounts.

#### Travel Changes

In the event of travel changes that result in an additional fee, the employee or Board member should include an explanation on the reimbursement form. Travel arrangement changes which result in an additional fee should be carefully considered and have a reasonable explanation. Paying additional fees to take an earlier flight is generally not acceptable unless approved by the employee's supervisor.

#### Lodging

Lodging should be in a safe location, at a reasonable rate, and conveniently located near the location of business (e.g., conference, meeting location, etc.). Reimbursement at a single room rate will be made. If available, the conference rate should be chosen. If possible, a mid-range hotel (e.g., Hampton Inn, Holiday Inn Express, Holiday Inn, etc.) should be selected. It is understood that this is not always possible depending on the location of a conference or meeting location, and it may be less expensive to select a more expensive hotel if the cost of a rental car can be avoided.

#### 4. Advancement or Reimbursement of Expenses

Expenses directly related to or associated with the conduct of District business and which adhere to Board Policy and these

regulations may be advanced or reimbursed. All references in these regulations to “reimbursable” expenses or “reimbursed” expenses also include advanced expenses. Employees and Board members should submit the District’s “Out of District Travel and Meal Reimbursement Form” as part of the reimbursement request. Required receipts and related documentation must be attached.

State law requires specific documentation of expenses. All documents and information submitted are public records subject to disclosure under the Freedom of Information Act. Before an expense for travel, meals, or lodging may be approved, the following minimum documentation must be submitted:

- (1) An estimate of the cost of travel, meals, or lodging if expenses have not been incurred or a receipt of the cost of the travel, meals or lodging if the expenses have already been incurred;
- (2) The name of the individual who received or is requesting travel, meals, or lodging if the expenses have been incurred;
- (3) The job title or office of the individual who received or is requesting the travel, meal, or lodging expense; and
- (4) The date or dates and nature of the official business in which the travel, meal, or lodging expense was or will be expended.

Meals are reimbursable as follows. Employees and Board members are expected to dine at reasonably priced mid-fare establishments and should generally not exceed \$80.00 per day. On the day of departure and/or the day of return from a trip, a full day’s allowance for meals is not always considered reasonable. The time of departure/return and meals provided during transportation are taken into consideration. Alcohol is not a reimbursable expense. Expense report documentation must include individual receipts with itemized order costs, date, place, and total cost of the meal including tip. A maximum tip of 20% per meal will be reimbursable. Meals for individuals not employed by the District or not on the Board of Education are not reimbursable and must be deducted from meal receipts.

Mileage reimbursement for use of the employee’s or Board members personal vehicle is at the current IRS rate plus highway tolls and parking fees. Employees will be reimbursed for mileage from their typical work location (school or district office address) to the ultimate destination (e.g., airport, conference location, etc.). Board members will be reimbursed for mileage from their home to the ultimate destination (e.g., airport, conference location, etc.). Employees and Board members should submit the “Standard Requisition Form” as

part of the reimbursement request. Mileage reimbursement will not exceed the cost of commercial coach or single class air fare.

Valet services should be avoided if at all possible but will be reimbursed as necessary. Internet access fees while traveling are reimbursable, if access is required.

Reasonable tips for bell hops, maid service, and valet services are reimbursable. Reasonable is defined as up to \$2/bag, \$5 per day for maid service, and \$1-\$3 per taxi/shuttle ride, respectively.

The following items are not reimbursable:

- Entertainment expenses as defined by State law
- Childcare
- Pet care
- Purchase of clothing or accessories
- Spa and other personal services such as barber, shoeshine, manicurist
- Fines for parking or other traffic violations
- Rental car insurance
- Maintenance, towing, or repairs to personal vehicles
- Cancellation fees for failure to cancel hotel or transportation reservations
- Personal grooming items and personal medicines/sundries
- Health club/exercise room fees
- In-room movies, games, and snacks

Reimbursement requests should be submitted to the employee's supervisor within 10 days of travel or date of incurring the expense. Board members should submit reimbursement requests to the Superintendent's Administrative Assistant within 10 days of travel or date of incurring the expense. Expenses that do not generally have a receipt such as tips, etc., expenses may be submitted without a receipt. If a receipt is lost or not readable, efforts should be made to contact the vendor (hotel, restaurant, etc.) to request a copy of the receipt. If a receipt is not submitted, the employee or Board member must clearly document the date, amount, and description of the expense, and reason for submittal without a receipt.

#### 5. Grant Funded Expenses

If reimbursement is to be provided by grant funding, the grant requirements for reimbursement will supersede these regulations in the event of a conflict or inconsistency between them.

**Community High School District 94 Reimbursement Request Form**

This form must be completed by the employee or Board member when travel requires a flight or rental car. The employee or Board member should not finalize or make any commitments until the Superintendent or his/her designee has approved this request for travel as submitted in this form.
