

4000 SUPPORT SERVICES, HEALTH and STUDENT ACTIVITIES**4001 SUPPORT SERVICES, PURPOSE**

Support services are essential to enhance, supplement and bolster a sound educational program.

It is the expectation of the Board that all support service departments in the District set high standards for their operations and assist in the efforts of the staff and community to provide meaningful instruction.

Adopted: November 20, 2001

Revised: January 8, 2013

4002 Student Support Services

The following student support services may be provided by the School District:

1. Health services supervised by a qualified nurse. The Superintendent, or his/her designee, may implement procedures to further a healthy school environment and prevent or reduce the spread of disease.

2. Educational and psychological testing services and the services of a psychologist, as needed. In all cases, written permission to administer a psychological examination must be obtained from a student's parent(s)/ guardian(s). The results will be given to the parent(s)/guardian(s), with interpretation, as well as to the appropriate professional staff.

3. The services of a social worker to the extent permitted by law. A student's parent(s)/guardian(s) must consent to regular or continuing services for a social worker.

4. Guidance and counseling services for both Student and Parents/Guardians as appropriate.

The Superintendent, or his/her designee, shall develop protocols for responding to students with social, emotional, physical or mental health problems that impact the ability to learn. The District, however, assumes no liability for preventing, identifying, diagnosing or treating such problems other than as part of an IEP.

This policy shall be implemented in a manner consistent with State and Federal laws.

Adopted: August 17, 2004
Revised: January 8, 2013

Reference: 42 USC §12101 *et seq.*; 405 ILCS 49/1 *et seq.*

4002P Rules and Regulations Accompanying Student Support Services

1. Student Services Team

Annually the Principal shall appoint a building-level Student Services Team consisting of counselors, social workers, deans, nurse and school psychologists. Team members must be school staff qualified by experience and certification to address student social, emotional, or mental health problems. As needed on a case-by-case basis, the Student Services Team may request the involvement of relevant Administrators, staff and the parent(s)/guardian(s). Records produced and shared among Team members may be subject to laws governing student records. Confidential information given to a therapist by a student is governed by 740 ILCS 110/1 *et seq.*

2. Referrals

Staff members should confidentially refer a student suspected of having social, emotional, physical or mental health problems to the building-level Student Services Team. The Student Services Team will review information about the referred student, including prior interventions, and suggest appropriate steps for referral and follow-up. The Student Services Team may offer strategies to a referred student's classroom teacher(s) and (when appropriate) parent(s)/guardian(s) about ways they can manage, address, and/or enhance the student's social and emotional development and mental health. In addition, the Student Services Team may recommend coordinated educational, social work, school counseling, and/or student assistance services within the school as well as referrals to outside agencies. Referrals under this procedure are unrelated to the special education process and do not trigger the District's timelines for evaluations. If a student is suspected to need special education and related services, special education referral procedures shall be used.

3. School Counseling, Social Work, and Psychological Services

The Student Services Team may request school counselors, social workers, psychologists, and school nurses to provide support and consultation to teachers and school staff about strategies to promote the social and emotional development and mental health of all students. They may also be requested to provide screening and early detection approaches to identify students with social, emotional, physical and mental health problems.

Written permission from the parent(s)/guardian(s) is required for more than five social work or psychological service sessions, of 45 minutes in length. Written consent may be obtained through an IEP or other designated form. That consent does not entitle parent(s)/guardian(s) to know the contents of all that is discussed. School counselors, social workers, and psychologists will inform parent(s)/guardian(s) of all issues that pose a health and/or safety risk; they will inform the Principal of any health or safety risks that are present in the school.

4. Psycho-Educational Groups

As appropriate, the Student Services Team may recommend that a student participate in a variety of psycho-educational groups. These groups are typically led by school counselors, social workers, or psychologists, but are not structured as or intended to be therapeutic services. Groups are designed to help students better understand issues and develop strategies to manage issues of concern to them that may, if not addressed, interfere significantly with the student's educational progress or school adjustment. Groups have a written curriculum that guides discussion over a set period time, generally 5 sessions. A student may voluntarily participate in a group without the permission of parent(s)/guardian(s) for up to five sessions of up to 45 minutes in length. Subsequent enrollment in the same group requires the permission of the parent(s)/ guardian(s).

Students in a group who present significant concern and for whom therapeutic services must be considered will be referred to the social workers, psychologists, or school counselors for individual consultation.

School and Community Linkages

When possible, the Student Services Team shall seek to establish linkages and partnerships with outside organizations to provide a coordinated approach to addressing children's social and emotional development, physical and mental health needs.

4100 EXTRACURRICULAR ACTIVITIES

4101 Interscholastic and Extracurricular Activities

The Board of Education believes a comprehensive and balanced activities program is an essential component to and extension of the basic program of instruction. The activities program should provide opportunities for students to further develop interests and talents in sports, debate/speech, dance, drama, journalism, music, student government and a variety of other academic and non-academic areas. Participation in these activities should provide students with a basis for personal leadership values, for job skills and for leisure activities.

The activities program should be available to all students who demonstrate an interest in participating, regardless of their individual abilities. Accordingly, appropriate skill levels should be established within activities, when feasible, so that as many students as possible may participate as fully as possible regardless of their ability levels.

Every reasonable effort should be made to support the activities program with the best facilities, equipment and with the most qualified staff available. Insofar as possible, knowledge and skills gained in coaches or advisors classes should be applied and developed further through participation in the activities program. Coaches, directors and sponsors should also teach the specific skills necessary for improvement in activities and provide guidance in the development of self-realization, good sportsmanship, cooperation, leadership, ethical behavior, artistic sensitivity and an appreciation for the importance of practice and preparation.

The intent of the activities program should be: (1) to realize the value of participation without overemphasizing the importance of winning or excelling, and (2) to develop and improve positive citizenship behaviors among the program's participants and supporters.

The District will, within available resources as determined by the board, help coaches, advisors and others achieve the objectives and principles adopted by the Board as defined here and elsewhere.

4102 Bill of Rights for Student Activity Participants

Student participants in activity programs should be served by the principles that follow:

1. The right to participate in activities.

2. The right to participate at a level commensurate with his/her maturity and ability.
3. The right to have qualified adult leadership.
4. The right to perform as a student without expectations to perform as an adult.
5. The right to share in the leadership and decision-making of his/her chosen activity.
6. The right to participate in safe and healthy conditions and environments.
7. The right to proper and thorough preparation prior to participation in events.
8. The right to an equal opportunity to strive for success.
9. The right to be treated with dignity and respect at practices and events.
10. The right to have fun through participation.

Adopted: November 20, 2001

4103 Outcomes of Activity Programs

The outcomes that follow are commonly accepted as potential benefits derived from student participation in activity programs.

1. To provide a positive image of school and activity programs.
2. To provide opportunities to develop skills and competence.
3. To complement the regular program of instruction.
4. To build relationships through affiliation with other students and coaches in groups and on teams.
5. To develop wholesome views toward fitness, conditioning and preparation for participation.
6. To promote opportunities for esteem to improve and for recognition to be earned.
7. To develop leadership skills.
8. To learn the privilege of representing in a visible way, some entity, school or community.
9. To help students learn the fun, excitement and challenge of competition.
10. To develop interests which can be pursued beyond graduation.
11. To practice self-discipline and emotional maturity in preparation for and participation in student activities.
12. To practice social competence, gain respect for others and practice commonly embraced rules and attitudes of conduct.

4104 Participation Requirements– Illinois High School Association Activities

Student participation in School Board-approved Illinois High School Association activities is contingent upon the following:

1. The student must attain academic standards set forth below and specified in the *Wildcat Planner Handbook*.

District 94 requires a grade of “E,” “D,” or better (“passing grades”) in a minimum of five (5) courses each semester. Students not passing five (5) courses in the semester preceding a season or period of participation shall be prohibited from participating or competing in Illinois High School Association activities, events, or competitions the following semester. Students must also maintain passing grades in five (5) courses throughout each season or activity period. Grades will be checked weekly. Students not passing five (5) courses will be suspended from competition or participation for one (1) week or until the student demonstrates passing grades in five (5) courses. During suspension from events or competitions, students may attend practices or be assigned a study table by the Athletic Director or Activities Director.

2. Written permission must be given by a student’s parent(s)/guardian(s) for that student’s participation in Illinois High School Association activities, including execution of a full waiver and release of responsibility of the risks involved.

3. A physical examination of the student must be conducted by a physician and an accompanying written statement assuring that the student’s health status allows for active athletic participation must be submitted to the district prior to the student’s participation in an activity.

4. The student must show proof of accident insurance coverage either by a policy purchased through the District-approved insurance plan or a parent(s)/guardian(s) written statement that the student is covered under a family insurance plan.

5. Student must be able to attend practice and activities as scheduled by district and conference.

The Superintendent or his/her designee shall maintain the necessary records to ensure student compliance with this policy.

4105 Procedures for Athletic Injuries

The coaches have the primary responsibility for the welfare and safety of students who are participating in school-sponsored athletic events. S/he must be present for and supervise all practices and contests. The District shall take reasonable steps to ensure the presence of a properly qualified sport trainer at all athletic contests.

When an athlete is injured at a home athletic event at practice, the sports trainer must take the following actions when indicated:

- Immediately determine if injuries are life-threatening or require urgent care.
- Seek emergency medical service as soon as possible.
- Provide life support if serious bleeding or breathing problems occur.
- Apply emergency dressings, bandages, ice packs and splints as indicated.
- Immobilize the athlete unless movement is absolutely necessary.
- Notify parents of injury and any need for further medical attention.
- Notify the certified trainer of the injuries.
- Remain in charge of the athlete until qualified medical personnel arrive or parents assume responsibility.
- Insure that injured athletes are accompanied to the locker room or hospital by a responsible adult or trainer until released to medical personnel or parents.
- Follow-up an injury with a personal visit or telephone call.
- Complete an accident report within 48 hours of incident.

The Coach may continue a practice or event following an injury only if available to supervise the remaining athletes.

If an injury or sudden illness occurs at an away contest the coach or sports trainer must take the following actions when indicated:

- Seek emergency medical services as soon as possible and follow the procedures of the host school in an emergency situation and notify the parents of the athlete.
- Use basic first aid measures if the injury is not one demanding urgent attention.
- Provide supervision of the injured athlete and team until released to a parent or qualified medical attendant.
- Complete an accident report within 48 hours.
- Follow up an injury with a personal visit or telephone call.

4106 Rules and Procedures Governing the Behavior of Students Participating in Interscholastic Athletics

1. The Illinois High School Association, the District 94 Board of Education and the Administration of District 94 govern and preside over the athletic programs of Community High School District 94.
2. An interscholastic athletic activity's season shall be deemed to begin with the first practice session for the activity permitted under Illinois High School Association rules and conclude with the last competitive activity of the sport scheduled during the current year.
3. A student-athlete engaged in interscholastic athletics is not permitted to:
 - a. use, possess, distribute, sell, or purchase tobacco, electronic cigarettes, alcohol, illegal drugs or narcotics, or any controlled substance of any kind at any time, or at any location. This includes times when school is not in session, any location off school grounds, and drugs used for performance enhancement. Also included would be instances when the legal term "constructive possession" applies. Constructive possession is a citation given to underage persons if they are in a location where alcohol or illegal substances are available and where consumption may have been possible. This does not include use of a controlled substance that has been properly prescribed for the student in accordance with said prescription.
 - b. engage in bullying/aggressive behavior, commit acts of vandalism or destruction of property; or engage in any willful act which could result in physical, mental, or emotional injury to another person.
 - c. Be actively involved with any gang or gang activity.
4. A student-athlete found to be in violation of any of the rules stated in Paragraphs 3A, 3B or 3C, above may be subject to the following penalties:
 - a. **First Violation:** A two-week suspension from the competitive season of the sport in which the student-athlete is currently participating; or, if the student athlete is not currently participating in a sport, in the next sport in which the athlete

participates if they chose to do so. During the term of such suspension the student athlete may be required to attend all practice sessions, but may not participate in any athletic contest with another school. A student-athlete who is subject to such suspension may not join a team after the team's season has begun. A student-athlete and his legal guardian(s) must meet with the Athletic Director to discuss and review the code violations and determine the extent in which the school can aid in the student athlete's behavior management.

- b. **Second Violation:** Total suspension, including practices, for the remainder of the sport season in which the student is currently participating; or, in the case of a student-athlete not currently participating in a sport, suspension from competitive activities the first three (3) weeks of the season of the next sport in which the student athlete participates. In addition, if the student-athlete is in violation of 3A, the student-athlete must successfully complete, at his/her own expense, a substance abuse rehabilitation or stop-smoking program approved by the Athletic Director and Head of the Physical Development Division. If the violation occurred under Paragraph 3B or 3C, the student-athlete must successfully complete, at his/her own expense, a program within the school or outside the school that supports the ethical and appropriate behavior that is expected of a law-abiding citizen. A student-athlete who is subject to such suspension may not join a team after the team's season has begun.
 - c. **Third Violation:** Suspension from all sports for one (1) calendar year. In addition, if the student-athlete is in violation of 3A, the student-athlete must successfully complete, at his/her own expense, a substance abuse rehabilitation or stop-smoking program approved by the Athletic Director and Head of the Physical Development Division. If the violation occurred under Paragraph 3B or 3C, the student-athlete must successfully complete, at his/her own expense, a program within the school or outside the school that supports the ethical and appropriate behavior that is expected of a law-abiding citizen. The student-athlete shall remain ineligible to participate in any interscholastic sports until the suspension, the substance abuse rehabilitation and/or citizenship counseling/ community service sessions have been completed.
5. The number of violations will accumulate during the individual student athlete's entire period of enrollment at Community High School and shall not terminate at the end of any given school year. A sports season shall be deemed to begin with the first practice session for the sport permitted under the IHSA rules and conclude with the last competitive activity of the sport scheduled during the current school year. In addition, all consequences for violations are subject to the discretion of the Athletic Director, Assistant Principal and/or Principal.
 6. A student-athlete in violation of Paragraph 3A who voluntarily discloses his/her willingness to enter a substance abuse rehabilitation or stop-smoking program may not be subjected to the penalties set forth in paragraphs above, at the discretion of the Athletic Director, Assistant Principal, and/or Principal. Such student-athlete shall again become subject to all the terms, conditions, and penalties specified in these rules

from the date on which s/he completes such approved program. A student-athlete may not avail himself/herself of this provision more than once.

- a. A student-athlete to whom this policy becomes applicable shall be afforded the following assistance:
 1. The Athletic Director in coordination with the Support Service Team and Health Office shall maintain a list of available rehabilitation and counseling programs and shall make the list available to student-athletes; however, s/he shall not recommend any specific program. The fact that a particular program is not included on such list shall not mean that the program used may not be deemed sufficient to meet the requirements of this policy.
 2. In the case of a student-athlete who cannot afford to participate in any rehabilitation and counseling program for which a fee is charged, the Athletic Director shall assist the student-athlete in locating a program operated by a public or non-profit organization which makes such programs available at no cost.
7. a. student-athlete who participates in interscholastic competition shall be required to be in compliance with all general school rules and regulations as well as the regulations as established by the coaching staff and sports administration for the sport in which s/he is participating.
8. A student-athlete who engages in behavior which constitutes a violation of school rules or team regulations shall be subject to disciplinary action as prescribed by the athlete's current coach.
 - a. The rules and penalties shall be administered by the current coach for the sport in which a particular student-athlete is participating and the Athletic Director.
 - b. A student-athlete shall be afforded an informal hearing with his/her coach prior to the imposition of a penalty.
 - c. Prior to any penalty being administered, the parent(s)/guardian(s) of a student-athlete subject to a penalty shall be contacted to meet with the Athletic Director and student-athlete to discuss the penalty and read and sign the written notice of penalty and consequences. If a meeting is not possible, the parents or guardians will be notified by written notice of the specific rule the student-athlete has violated, the nature of the violation, the penalty imposed, and the student-athletes right of appeal. Such notice shall be sent within three (3) school days after the imposition of the penalty.
 - d. A student-athlete subjected to a penalty shall have the right to appeal the decision of his/her coach and the Athletic Director to the Athletic Council. A student-athlete may initiate such an appeal by notifying, in writing, his/her coach or the Athletic Director. Such notification must be provided not more than five (5) school days after the day on which the student-athlete is notified of the imposition of the penalty. The Athletic Council shall consider such an appeal and render a decision within five (5) school days after the appeal has been initiated. The decision of the Athletic Council regarding an appeal shall be final. Information regarding a student-athlete's violation of the rules contained herein or a penalty imposed as a

result of such violation shall be made known only to those persons with a need to know.

Members of the Athletic Council shall be as follows:

- Head of the Physical Development Division
- The Head Coach of the current sport in which the student-athlete is participating
- If the student-athlete is not in any sport, it will be the Head Coach of the last sport in which the student-athlete participated.
- The student-athlete's Guidance Counselor
- Dean of Students

A staff member who reports a behavior violation that results in a penalty on that is appealed to the Athletic Council or a staff member who has imposed a penalty that is appealed to the Athletic Council shall not participate in the Athletic Council's deliberations regarding the appeal, except as a witness.

4107 Student Participation in Co-curricular Organizations

It shall be the policy of the Board of Education to encourage, within available resources as determined by the Board, the formation and support of local chapters of state and national organizations whose purpose is to supplement and enhance the instruction provided by District 94.

Although the Board believes that, in general, the activities of District 94 chapters of such organizations should be financed through the use of Activity Fund monies, or self-funded through fund raising events, the Board may provide financial assistance for the purpose of enabling students who have demonstrated outstanding performance in state-wide or regional contests of such organizations to participate in national contests conducted by them. Such assistance shall be subject to the availability of funds and approval of the Board of Education or Administration.

A set of rules and regulations regarding student and faculty sponsor participation in the national conventions and contests of such organizations shall be developed and shall accompany this policy.

Note: For the purpose of this policy, a co-curricular organization shall be defined as an organization for high school students which have as its

primary purpose supplementing and enhancing the instruction provided in an area of study included in the District 94 co-curricular program.

Adopted: November 20, 2001

Revised: October 17, 2006; January 8, 2013

Reference:

4107P Rules and Regulations Accompanying Student Participation in a Co-curricular Organization's National Convention or Competition

Student members shall be permitted to attend the national convention or competition sponsored by the respective organization subject to the following conditions:

1. The student's eligibility to attend the convention or competition must be the result of having qualified for national level competition, under the rules of the organization, individually or as a team or by having been elected to the office of president, vice president, secretary, treasurer, or parliamentarian of the State or Regional organization.
2. The student must be in good standing in the school and in the local chapter of the organization sponsoring the convention or competition.
3. A faculty sponsor shall chaperone the trip.
4. The student shall be subject to all school rules and Board of Education policies regarding student behavior while en route to and from the convention or competition and while in attendance at the convention or competition, including, but not limited to, Board of Education policies and rules regarding student discipline and participation in inter-scholastic athletics.
5. Transportation to and from the convention or competition must be by carrier approved in advance by the Principal. Transportation by means of a vehicle driven by a person under twenty-one (21) years of age shall not be permitted.

The Board of Education may, to the best of its ability, within available resources as determined by the Board, assume the following costs with student attendance at a national convention or competition:

1. Registration fees.
2. Transportation to and from the convention or competition for the student and faculty sponsor.
3. Housing for the student and the faculty sponsor.
4. Meal reimbursement, tolls, parking, and miscellaneous travel expenses for the faculty sponsor per established guidelines. Meals for students shall be at their own expense.

4108 Formation of a New Club/Organization

Any student or staff member interested in forming a new club/organization as a pilot activity must complete an application for a club charter and submit this application to the Activity Director. Each newly formed pilot club/organization shall be allowed to meet in the school provided a staff member is found willing to voluntarily and without compensation advise and supervise the group while it meets. The Administrator in charge of facility use must approve meeting times and locations.

Following one year of pilot operation, if interest and membership has been maintained, the Activity Director shall make a recommendation on behalf of the new organization to Student Council for approval. Student Council must approve the new organization by a 2/3's vote.

Upon approval by Student Council, the Activity Director shall make a recommendation to the Superintendent, through the Principal, that the new group be added to Appendix B and recognized as an official club/organization in the District.

The application for inclusion in Appendix B must include the following:

1. Club constitution that reflects the goals/purposes of the organization
2. Membership and participation policies/procedures
3. A process for electing officers and their defined duties
4. Major activities and/or projects of interest
5. A list of members

In turn, the Superintendent shall convene the Appendix B Committee to make a formal recommendation to the Teachers' Association and the Board as to an appropriate pilot rating for an advisor to the club/organization to be added as a Memo of Understanding to the contract. Upon the approval of both parties and assignment of a sponsor the group can begin meeting officially the following school year.

The Appendix B Committee shall make an advisory recommendation regarding positions to be added to or deleted from Appendix B for the following school year to the superintendent for consideration based upon available resources, student participation and adherence to the activity's constitution and goals of the District. The superintendent will recommend the appropriate action to the school board for final determination.

4200 HEALTH SERVICES**4201 Temporary Medical Conditions**

Appropriate school staff members shall assist with the development of an educational program for student known to be pregnant, to have been involved in an accident, to have contracted a non-communicable disease, or to have some other temporary medical conditions designed to enable the student to continue his/her high school education, to the greatest extent feasible, during and after the temporary medical condition.

The school nurse shall determine any modifications in the curricular and/or extracurricular program of a student with a temporary medical condition needed in order to protect his/her physical welfare. Such needed modifications shall be implemented by the appropriate pupil personnel service staff member.

Upon request from a student or Parent/Guardian of a student with a temporary medical condition, the school nurse will recommend that the parent/guardian contact their insurance provider and may provide the student/parent/guardian a list of area agencies from which competent medical care may be obtained. Neither the school nurse nor any other employee of the district shall recommend a specific agency, doctor, or medical, treatment, therapeutic, etc. facility.

With respect to pregnancy, no employee shall in any manner attempt to advise a student or parent/guardian regarding the continuation or termination of her pregnancy or the disposition of a child resulting from her pregnancy. Similarly, no employee shall advise a student/parent/guardian as to treatment.

All employees shall comply with the applicable statutes and Illinois State Board of Education rules and regulations regarding confidentiality between students and school staff members.

4201P Rules and Regulations for Students with Temporary Medical Conditions

The following series of procedures shall be implemented when a counselor, the nurse, the social worker, the psychologist, or an administrator becomes aware that a student has a temporary medical condition:

1. The student's counselor shall meet with the student and explore with the student his/her options with respect to the continuation of his/her schooling.
2. The student's counselor shall refer the student to the school nurse who shall determine whether his/her medical condition requires modification of his/her curricular and/or extracurricular program (physical education, athletics, cheerleading, etc.). The school nurse shall encourage a student who has not done so to consult a physician regarding proper health care during his/her temporary medical condition.
3. If a student has not consulted a physician and requests medical advice, the school nurse will direct parents to contact their insurance carrier and/or may provide the student with a list of area agencies that provide competent comprehensive medical services for the temporary medical condition.
4. With respect to pregnant students:
 - A. The school nurse's assistance shall be limited to medical referral; advice regarding a particular course of action shall not be provided.
 - B. The list of area agencies provided may include agencies that specialize in both services for pregnant teenagers and comprehensive health service.
 - C. The student's counselor, the nurse, or the social worker shall meet with the student and encourage her to inform her parents of her condition. If the student has not informed her parents and it appears to the staff member that the student is reluctant to do so, the staff member shall offer to meet with the student and her parents for the purpose of informing them of her condition. If the student declines this offer, the staff member shall advise the student that s/he will disclose the student's condition to the student's parents unless prohibited by law or court order from doing so.
 - D. If a pregnant student provides the school nurse evidence of a medical appointment, confidential or non-confidential, the nurse shall notify the attendance office that the absence is excused.
5. When a student arrives at a decision regarding a course of action regarding his/her temporary medical condition, a member of the pupil personnel services team shall meet with the student and, if possible, his/her parents to develop a specific plan designed to enable the student to continue his/her high school education to the greatest extent feasible.

Other pupil personnel service staff members may be invited to attend this meeting when their presence is deemed helpful by the responsible administrator.

4202 Students with Chronic Communicable Diseases

A student with or carrying a communicable and/or chronic infectious disease has all rights, privileges, and services provided by law and the School Board’s policies. The Superintendent will develop procedures to safeguard these rights while managing health and safety concerns.

Procedure - Managing Students with Communicable or Infectious Diseases

A student with a communicable or infectious disease shall be treated as a “handicapped person” under Section 504 of the Rehabilitation Act of 1973, unless the student has an IEP under the Individuals with Disabilities in Education Act and Policy 8008 *Rights of Individuals with Disabilities*. For those students with an IEP, the District’s Policy 8007 *Education of Children with Disabilities* must also be followed and will control whenever there is a conflict with these procedures.

Rules and guidance from the ISBE and IDPH should be consulted and supersede these procedures (see *Management of Chronic Infectious Diseases in Schoolchildren*, revised 2003 by the ISBE and IDPH, http://www.isbe.net/spec-ed/pdfs/chronic_diseases.pdf and *Communicable Disease Guide* revised 2002, IDPH).

Managing Students with Communicable or Infectious Diseases

Actor	Action
Parents/Guardians	Notifies the Building Principal where their child is enrolled if their child has a communicative or infectious disease. A communicative or infectious disease includes Acquired Immune Deficiency Syndrome (AIDS), AIDS-Related Complex (ARC), and Human Immunodeficiency Virus (HIV).
Department of Public Health or Local Health Authority	Gives prompt (within 3 working days) and confidential notice of a child’s identity to the Building Principal of the school in which the child is enrolled whenever a child is reported as having AIDS or AIDS-related complex (ARC) or as having been exposed to Human Immune Deficiency Virus (HIV) (410 ILCS 315/2a; 77 Ill.Admin.Code §697.400).
Building Principal or designee	Upon having knowledge of a known or suspected case or carrier of a communicable disease: <ul style="list-style-type: none"> a. Notifies the local health authority as required by 77 Ill.Admin.Code §690.200. b. Notifies the Superintendent. May, as necessary, disclose the infected

Actor	Action
	<p>child’s identity to the school nurse, the applicable classroom teachers, and those persons who, by federal or State law, are required to decide the placement or educational program of the child (410 ILCS 315/2a).</p> <p>c. Notifies others, as necessary, provided the child’s identity is not revealed (410 ILCS 315/2a).</p> <p>d. Temporarily excludes a student from school attendance according to 77 Ill.Admin.Code §690.</p> <p>Keeps the school open where a student with a communicable disease attended, except in the event of an emergency (77 Ill.Admin.Code §690.1000 (c)(1)).</p>
District staff	<p>Observes all rules of the IDPH regarding communicable and chronic infectious disease. See the Legal References for a list of these rules.</p> <p>Collects and maintains the student’s medical information in a manner that ensures the strictest confidentiality and in accordance with federal and State laws regarding student records.</p>
Superintendent or designee	<p>Confirms that all required and appropriate notices are made.</p> <p>Convenes the Communicable and Chronic Infectious Disease Review Team. This Superintendent committee is composed of the District’s medical advisor, a school nurse, the Building Principal, and the Superintendent or designee.</p>
Communicable and Chronic Infectious Disease Review Team	<p>Arranges a meeting with the student’s parent(s)/guardian(s), personal physician, local health authorities, as well as persons with knowledge of the placement options available. The purpose of the meeting is to:</p> <p>a. Determine when an excluded student will return to school. This determination shall be based on whether the student poses a high risk of transmission of a communicable and chronic infectious disease to other students and staff. A student suspected of being infected with a disease for which isolation is required shall be refused admittance while acute symptoms are present (77 Ill.Admin.Code §690.1000).</p> <p>b. Make a placement decision based on the pre-placement evaluation. The placement decision shall include any needed related services (34 C.F.R. §104.35).</p> <p>d. If there is a reason to believe that the student may have a disability requiring special education and related services, the child shall be referred for a special education evaluation. Referrals may also be made, at any time, by any concerned person, including but not limited to School District personnel, the child’s parent(s)/guardian(s), a community service agency employee, a professional having knowledge of a child’s problems, a child, or an ISBE employee. See the District’s Policy 8007 <i>Education of Children with Disabilities</i></p>

Actor	Action
	e. Reports the meeting results to the Superintendent.
Superintendent or designee	Notifies the student's parents/guardians when an excluded student can return to school and of the placement decision. If the student will not attend school, every reasonable effort shall be made to provide the student with an adequate alternative education. State regulations and school policy regarding homebound instruction shall apply.
Communicable and Chronic Infectious Disease Review Team	At least annually while a student has a contagious or infectious disease, arranges a meeting with the student's parent(s)/guardian(s), personal physician, local health authorities, as well as persons with knowledge of the placement options available, to review the student's education placement and the provision of related services.

Managing a Student with a Communicable or Infectious Disease Who Demonstrates Behavior that Could Result In Infecting Other Students or Staff Members

Actor	Action
Parents/Guardians or any staff member	Notifies the Building Principal if a student with a communicable or infectious disease shows a lack of control of bodily secretions, has open sores that cannot be covered, or demonstrates behavior (e.g., biting) that could result in direct inoculation of potentially infected body fluids into the bloodstream.
Building Principal	Immediately notifies the Superintendent of the above.
Superintendent or designee	Upon being notified that a student is demonstrating behavior that could spread his or her disease, convenes the Communicable and Chronic Infectious Disease Review Team. If appropriate, notifies parents of students of possible exposure if their student may have been exposed to a communicable or infectious disease due to behaviors exhibited by a student having such a disease.
Communicable and Chronic Infectious Disease Review Team	Arranges a meeting with the student's parent(s)/guardian(s), personal physician, local health authorities, as well as persons with knowledge of the placement options available. The purpose of this meeting is to: <ul style="list-style-type: none"> a. Determine whether the student's temporary removal from the classroom is appropriate because the student poses a high risk of transmitting a communicable and chronic infectious disease or whether another response exists to reduce the risk of transmission. A student suspected of being infected with a disease for which isolation is required shall be refused admittance while acute symptoms are present (77 Ill.Admin.Code §690.1000). b. Perform a pre-placement evaluation if the student will continue to attend school (34 C.F.R. §104.35). c. Make a placement decision based on the pre-placement evaluation. The placement decision shall include any needed related services (34 C.F.R. §104.35). If the student will continue to attend school, determine the student's appropriate educational placement. The team shall also determine if the student needs related services or placement

Actor	Action
	outside the regular classroom. Reports the meeting's results to the Superintendent.
Superintendent or Designee	Notifies the student's parent(s)/guardian(s) whether the student will attend school. If the student will not attend school or participate in school activities with other students, every reasonable effort shall be made to provide the student with an adequate alternative education; however, an individual student's IEP will control. State regulations and school policy regarding homebound instruction apply.
Communicable and Chronic Infectious Disease Review Team	At least once a month while a student is removed from normal school attendance, arranges a meeting with the student's parent(s)/guardian(s), personal physician, local health authorities, as well as persons with knowledge of the placement options available, to review the removal and to determine whether the condition precipitating the removal has changed.

General Post-Evaluation Procedures

Actor	Action
Parents/Guardians	May appeal their child's exclusion from school or educational placement to the School Board within 10 days of being notified of the action.
Parents/Guardians	When their child returns to school after an absence due to a communicable and chronic infectious disease, present a certificate from a physician licensed in Illinois stating that the child qualifies for re-admission to school under the rules of the IDPH that regulate periods of incubation, communicability, quarantine, and reporting.

4203 Physical Examinations, Eye Examinations, and Immunizations

1. **Physical Examination/Immunizations** - Each student entering the ninth grade shall be required to present evidence prior to the first day of the school year that s/he has had a physical examination and the immunizations against, and the screenings for,

preventable communicable diseases, as required by the Illinois Department of Public Health, within one year prior to the student's first day of attendance. The examination shall be conducted by a person licensed to practice medicine in all of its branches in the State of Illinois or any other state, or such other person permitted by the Illinois Department of Public Health. The District shall provide notice of the requirements of this policy consistent with the provisions of Section 27-8.1 of the Illinois School Code sixty (60) days prior to the first day of the school years.

Those students who participate in interscholastic sports will be required to present evidence of a physical examination that was completed and dated within a year prior to the time that the interscholastic sport of participation will end its season. Otherwise, a new sports physical will need to be submitted to the Athletic Department to enable the student to participate.

A student, regardless of age or grade level, who enrolls at District 94 from another location shall be required to provide evidence prior to enrolling in the District that s/he has had a physical examination and the immunizations against, and the screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health, within one year preceding entrance into the ninth grade, or their enrollment in District 94, or as otherwise required by this Policy and applicable law. The examination shall have been conducted by a person licensed to practice medicine in all of its branches in the State of Illinois, or any other state or such other person permitted by the Illinois Department of Public Health. All students must meet this requirement at the time of enrollment in District 94. This requirement can be met by having health records transferred to District 94 from the sending school district.

Physical examinations shall be reported on the Illinois Department of Public Health Certificate of Child Health Examination form as prescribed by the Illinois State Board of Education, except that in the case of a student from out-of-state or out-of-country, a form equivalent to the Illinois requirements may be accepted when his/her enrollment in District 94 is the first entry into an Illinois school.

Additional health examinations and further evaluations, including eye examinations, of students may be required when deemed necessary by school authorities.

A student who does not comply with the foregoing requirements by the first day of the school year, and who is not otherwise exempt from said requirements, may be excluded from school until such requirements are met.

2. **Eye Examinations** - Each student who transfers to District 94 from another state or country, or who has not previously enrolled in an Illinois school shall be required to present proof prior to the first day of the school year that s/he has been examined by a physician licensed to practice medicine in all of its branches or a licensed optometrist within the previous year. Notification of this requirement shall be made sixty (60) days prior to the first day of the school year, consistent with the provisions of Section 27-8.1 of the Illinois School Code.

Parents/Guardians whose children are not required to have an eye examination shall be encouraged to have their children undergo an eye examination whenever health examinations are required.

The Superintendent or designee shall ensure that parents/guardians are notified of this eye examination requirement in compliance with the rules of the Department of Public Health. District 94 shall not exclude a student from attending school due to failure to obtain a required eye examination.

3. **Exemptions** - In accordance with rules adopted by the Illinois Department of Public Health, a student will be exempted from the requirements of sections 1 and 2 or this policy for:

- A. Religious or medical grounds if the student's parents/guardians present to the Superintendent a signed statement explaining the objection;
- B. The physical examination or immunization requirements on medical grounds if a physician provides written verification; or,
- C. The eye examination requirement if the student's parents/guardians show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist

4. **Exemption from Physical Education on Medical Grounds** - A student whose physical status necessitates restricted participation or no participation in the physical education curriculum shall file with the school nurse a statement from a person licensed to practice medicine in all its branches in the State of Illinois or any other state and that statement shall denote the student's diagnosis and/or condition, the duration of any limitation on physical activity required, and any alternate physical activity in which the student is able to participate. The applicability of such a statement shall be limited to the school year in which it is filed.

5. **Exclusion of Non-Immunized Students in the Event of an Epidemic** - In the event that the Illinois Department of Public Health or DuPage County Board of Health declares that the incidence of a disease for which students are required to be immunized has reached epidemic proportions in this geographic area, all students who have not provided documented proof of immunity to that disease shall be excluded from school until further notice.

6. **Homeless Child** - Any homeless child shall be immediately admitted even if the child or child's parents/guardians is/are unable to produce immunization and health records normally required for enrollment.

4204 Medication in School

It shall be the policy of District 94 that the administration of medication or supervision of self-medication to students during regular school hours should be discouraged unless necessary to maintain the student in school, or in the event of an emergency. However, any student who is required to take medication during the school day must comply with school district policy.

The school nurse or his/her designee can facilitate this process by providing information to the parent(s) or guardian(s) and student(s) on the process to be followed in the administration of medication during school hours. The Board will insure and indemnify personnel designated to administer or supervise the self-administration of medication for asthma or severe allergy when such personnel follow the policy and procedures put forth in this document. School personnel will not diagnose or treat illness, nor will nurses administer any medication without written orders from a medical doctor and permission from parent(s)/guardian(s).

A medication form will be made available to the parent(s)/guardian(s). The medical doctor will write medication orders on this form and the parent(s)/guardians will sign the form giving the professional school personnel permission to administer the medication to their child. Medications include those classified as prescriptions, herbal, natural, holistic, and over-the-counter. If the medication is an antibiotic that is being prescribed for a short period time (up to and including 10 days), the parent(s)/guardian(s) may sign his/her permission for the administration of the medications without a medical doctor's order.

If the medication is an inhaler to treat asthma or a medication to be injected for a severe allergy the student may carry the medication and self-administer during the school day and at all school events with the provision that the Self-Administration Medication form has been completed by a medical doctor and the parent(s)/guardian(s).

All Medication Permission Forms must be on file in the Nurse's Office and will be in effect for the school year for which it is granted. The school district will require a renewed Medication Form for each subsequent school year.

All prescription medications must be contained in the original labeled prescription bottle or package with the student's name inscribed. Over-the-counter medications must be in their original container. All medications will be stored in a locked cabinet in the Nurse's Office. Medications that are sent to school in plastic baggies, envelopes, etc. will not be administered and will be returned to the student at the end of the school day.

The school nurse will administer medication to the student according to the medical doctor's direction. In the event the nurse is not available to administer the medication, a designated school administrator will administer the medication. The exception would be for those students who have Self-Administration Medication forms completed and in effect.

4205 Student Insurance Program

The Board of Education shall make accident insurance coverage available to students at the time of registration, providing a reliable insurance carrier will supply such coverage. Participation in such an insurance plan shall be optional and paid for by the student.

Students are not eligible to participate in inter-scholastic athletics without insurance coverage – either as a dependent on parent’s insurance or individual student insurance.

Adopted: November 20, 2001

Revised: January 8, 2013

Replaces: JGA – Student Insurance Program

4206 Student Accident Documentation

All accidents involving District 94 students on District grounds during school hours or school activities or off site during approved/sponsored school activities must be reported as soon as possible by the District staff member responsible for supervision of the student(s) on a Student Accident/Injury Report form to the appropriate supervisor. This will provide information that

1. Might be helpful in prevention of similar accidents
2. Is needed to file insurance claims
3. Might be of importance in case of litigation

Student accidents involving district owned office or contracted vehicles will be reported to the Business Office. If the accident occurs while students are being transported to or from school, a school nurse will be called to assess all student passengers. If there are obvious injuries, 911 will also be called. All parents or guardians will be contacted, even if there are no apparent injuries. Student accidents on school property and on the way to and from school will be reported to the principal. The school nurse will if practicable assess the injuries and report in writing to the principal and the Superintendent and Business Office.

Employees involved in on the job accidents will file a workman’s compensation form with the Business office. The injured employee is responsible for filing his/her own form.

Student accidents during interscholastic athletic activities, whether at practice, home, or away events will be reported to the coach and Athletic Trainer (if in attendance). A written report of the accident will be initiated by the Trainer and submitted to the school nurse who will complete the report and submit it to the principal, Superintendent, and Athletic Director and Business Office.

Other student accidents during school-sponsored activities and during school hours will be reported to the sponsor of that activity or to the principal as soon as possible.

The sponsor will initiate a report or information to be given to the school nurse and a complete report will be submitted to the principal and the Business Office.

All student accidents other than those listed above should be reported to a school official in attendance who will inform the nurse who will distribute the report to appropriate personnel.

4207 Allergens (Anaphylaxis to Food and Other Substances)

The Board recognizes that pupils may have anaphylaxis to certain foods and other substances. Anaphylaxis is a sudden, severe, potentially fatal, systemic allergic reaction that can involve various areas of the body (such as the skin, respiratory tract, gastrointestinal tract, and cardiovascular systems). Symptoms can occur within minutes to hours after contact with the allergy-causing substance, and these reactions can range from mild to life threatening. The building principal and school nurse will take precautions to ensure the safety of pupils with anaphylaxis to food and other substances.

It is very important that that the parent (s)/legal guardian(s) of pupils with anaphylaxis to food and other substances inform the school nurse in the event the pupil may have an anaphylactic reaction while in school. When a parent/legal guardian informs the school nurse that the pupil may have an anaphylactic reaction to substances other than food while in school, the school nurse will work with school staff to determine if these substances are on school grounds. The school nurse will inform and work with the parent/legal guardian and the pupil to avoid the pupil's exposure to these substances if present on school grounds. The school nurse will notify school staff that interacts with the pupil.

The Board of Education disclaims any and all responsibility for the diagnosis and treatment of any illness, including any allergies of any pupils, recognizing that the responsibility of diagnosis and treatment of any illness falls to the medical profession and parent. At the same time, the Board recognizes that a pupil's health and safety may be contingent upon timely administration of medication duly prescribed by a physician. The Board will permit the self-administration of medication for a pupil with anaphylaxis to food and other substances pursuant to Public Act 96-0349. The parent(s)/legal guardian(s) of a pupil with anaphylaxis to food and other substances must provide the school nurse with written authorization for the emergency administration of epinephrine via a pre-filled single dose auto-injector mechanism and a pre-measured dose of an antihistamine or equivalent for the pupil. Any other administration of medications to pupils in school will be in accordance with the Board's administration of medication policy and applicable laws.

Food Allergies

School attendance may increase a student's risk of exposure to allergens that could trigger a food-allergic reaction. A food allergy is an adverse reaction to a food protein mediated by the immune system, which immediately reacts, causing the release of histamine and other inflammatory chemicals and mediators. While it is not possible for the District to completely eliminate the risks of exposure to allergens when a student is at school, a Food Allergy Management Program using a cooperative effort among student's families, staff members, and students helps the District reduce these risks and provide accommodations and proper treatment for allergic reactions. The Superintendent or designee shall develop and implement such a program, which shall be based on the joint State Board of Education and State Department of Public Health publication *Guidelines for Managing Life-Threatening Food Allergies in Illinois Schools*.

Based on the school cafeteria's use of government commodity foods and beverages and foods brought into the building by pupils and staff, the District may not know the exact ingredients used in the preparation of all food and beverage items served or available within the school lunch program and in various areas of the building over the course of the school day. Therefore, the parent(s)/legal guardian(s) and/or the pupil with anaphylaxis to food should be responsible for the pupil's purchase and consumption of any food products sold, made available or provided by the school and/or by any school related organizations that may cause an anaphylaxis reaction. Upon the request of a parent(s)/legal guardian(s) of a pupil with anaphylaxis to food, the principal, working with the school nurse and school cafeteria personnel, will accommodate, as best as possible, a pupil with anaphylaxis to food by offering limited food substitutions that are free of the pupil's food allergy.

There will be occasions where food and/or beverages will be served as part of a classroom experience, field trip, and/or classroom celebration. Because the ingredients of these food products may be unknown to the food server, a pupil with anaphylaxis to food should not consume any food products that he/she is unsure of the ingredients. The teacher will provide the pupil with advance notice of the classroom experience, field trip, and/or classroom celebration in order for the pupil to bring a food or beverage from their home so that they may participate in the activity.

The school nurse will coordinate the District's training of staff about management of students with food allergies, which shall include recognition of symptoms, administration of medication, and best practices for use when a pupil exhibits an anaphylactic reaction. Training shall be conducted by a person with expertise in anaphylactic reactions and management. The principal and school nurse will work with other school staff to eliminate or substitute the use of food allergens in the allergic pupil's meals, educational/instructional tools and materials, arts and craft projects, or incentives.

4208 Concussion Policy – Student Athlete Concussions and Head Injuries

The Superintendent or designee shall develop and implement a program to manage concussions and head injuries suffered by student athletes. The program shall:

1. Comply with the concussion protocols, policies, and by-laws of the Illinois High School Association, including its *Protocol for NFHS Concussion Playing Rules* and its *Return to Play Policy*. These specifically require that:

- a. A student athlete who exhibits signs, symptoms, or behaviors consistent with a concussion in a practice or game shall be removed from participation or competition at that time.
 - b. A student athlete who has been removed from an interscholastic contest for a possible concussion or head injury may not return to that contest unless cleared to do so by a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer.
 - c. If not cleared to return to that contest, a student athlete may not return to play or practice until the student athlete has provided his or her school with written clearance from a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches in Illinois.
2. Inform student athletes and their parents/guardians about this policy in the *Agreement to Participate* or other written instrument that a student athlete and his or her parent/guardian must sign before the student is allowed to participate in a practice or interscholastic competition.
 3. Provide coaches and student athletes and their parents/guardians with educational materials from the Illinois High School Association regarding the nature and risk of concussions and head injuries, including the risks inherent in continuing to play after a concussion or head injury.
 4. Include a requirement for staff members to notify the parent/guardian of a student who exhibits symptoms consistent with that of a concussion.

4300 TRANSPORTATION

4301 Transportation of Students

Community High School District 94 will provide free transportation for students as and to the extent required by applicable law.

Students who are not eligible for free transportation will be allowed to pay a fee for transportation if the following criteria are met:

1. There is space available on existing routes serving that student's area recognizing that some space must be reserved for additional students transferring to the high school during the year.
2. The district is not required to provide additional routes or bus service to serve students living less than one and one-half miles from school.
3. No new bus stops are required. Students paying for transportation must be picked up at an existing stop.

If requests exceed available space, preference will be given to the first applicants for fee-based transportation.

Each parent participating in fee-based busing will sign a statement acknowledging the above listed stipulations. Further, the statement will specify that access to fee-based busing is provided only to the extent of available space and may be discontinued at any time with or without notice.

All payments for fee-based busing will be made in advance on a quarterly basis. Fees will be based on roundtrip service for 1 school year. Service is not transferable.

4308 Emergency School Closing

When weather conditions or emergency situations make it necessary to delay the opening of school, dismiss early, or close school entirely, the change will be announced on local radio stations, phone blast and web site. These decisions to close school are made by the Superintendent based on information received from bus and other contractors, the Illinois Department of Transportation, municipal government, and police.

Action taken to delay the opening of, dismiss early, or close Community High School, will include the entire district.

Decisions on needed make-up days will be made by the Board of Education.

When school is closed or dismissed early, all athletic practices, events, club meetings, and school-sponsored activities are cancelled unless an exception is granted by the Superintendent of Schools for valid reasons. Determinations regarding away athletic events are under control of the host district.
